B.C. Wedding Of Local Interest

PEACOCK — ROBSON

Olivet Baptist Church, New Westminster, B.C., was the scene of a summer wedding Aug. 11, at 7:30 p.m., when Shirley Elizabeth Robson, became the bride of Gordon Lynn Peacock. Rev. W. Evan Fullerton officiated at the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. W. J. Robson, formerly of Vulcan district. The groom is the son of Mrs. Peacock of Langley, B.C., and the late Frank A. Peacock.

The bride was gown in a white ballerina length gown with fitted bodice of nappa lace and long lily point sleeves. From the back of the sashina neckline flowed streamers of lace appliqued nylon. Finet matching the bouffant skirt. A headress of pearls and sequins held the chapel length veil of lace bordered nylon net. The bride wore the groom's gift of a single strand of pearls and carried a bouquet of red roses and white hyacinths.

Miss Jean McLellan, bridesmaid, was gown in blue nylon chiffon with fitted bodice and bouffant skirt. She wore a flowered head bandeau and carried a bouquet of pink and white carnations.

The best man was G. E. Shannon and Corporal G. A. R. Sharp and G. Tout were the ushers.

Mr. and Mrs. E. G. McPherson of Vulcan, accompanied by Mrs. E. E. Pedersen and family of Medicine Hat attended the wedding. At the reception Mr. McPherson, uncle of the bride, proposed the toast.

The bride's bouquet was sent to the groom's cousin, Mrs. Doreen Jansen of Vancouver, who is confined to bed.

After a honeymoon spent in the interior of British Columbia, Mr. and Mrs. Peacock will live in Langley, B.C.

Early to bed, early to rise — till you make enough to do otherwise.

Negotiations Stalemated

Fail To Reach Agreement On Teachers' Salaries

County councillors held their regular August meetings last week at the School Committee meeting held on Tuesday, the principal item of business was the discussion with the Conciliation Commissioner, C. B. Dagg and L. A. Sagert, bargaining agent for the Alberta Teachers' Association. The committee and Mr. Sagert, spent all day Tuesday discussing teachers' salaries and arrived at an agreement which was submitted to the chairman of the Vulcan Local ATA Negotiating Committee. Mr. Sagert advised the School Committee that he (Sagert) was unable to obtain approval to the proposed settlement which had appeared to him to be very favorable to the teachers. The School Committee withdrew its offer which had been made in good faith. Negotiations now appear to be stalemated until the teachers hold a general meeting after school opens on Sept. 2, and the School Committee meets on September 19.

Grade 12 Results
School Committee members were given the results of the Grade XII examinations and were very pleased to note that students in the Vulcan High School produced better results this year than in the previous history of the school. In Vulcan, 21 students wrote 112 examination papers and obtained a mark of 50% or better on 89 papers, which is an average of 79%. Thirteen of the pupils were successful in passing a complete matriculation standing.

The results in the other schools in the county, however, were quite disappointing to the committee and it was noted that 41 pupils wrote 173 papers, and that only 52 obtained an average of 50% or more. This was only 30% of the number of papers written, and it was also noted that only two of the students writing Grade XII examinations outside of the Vulcan school, obtained a complete matriculation standing. In view of the fact that no student graduated from Grade XII at Carmangay this year, the Andrew Haworth Scholarship cannot be awarded.

School Vans

Committee members spent some time in going over the matter of school vaning arrangements, and appointed J. J. O'Reilly, County Maintenance Foreman, to have charge of the school bus administration. Mr. O'Reilly will supervise the operation of all contract buses as well as those owned by the County.

Municipal Committee

At the Municipal meeting held on Wednesday, the committee members were interviewed by J. M. Jamison on behalf of Mrs. Louise Jackson in respect to alleged damages to her farm through flood conditions. After discussing this matter for some time with Mrs. Jackson and Mr. Jamison, the committee members felt that the County of Vulcan was in no way responsible for the water on Mrs. Jackson's land.

Arrangements were made to engage a number of tractors to operate the weed cutting machines on the shoulders of the municipal roads.

County Council

One of the principal items of business at the County meeting on Friday was the discussion of a letter from the Farmers' Union of Alberta in respect to the collection of membership dues along with taxes. The councillors considered this matter and felt that it should be left over for the time and deferred action.

A letter from the Fire Commissioner of the province in respect to an inspection of the Hamlet of Queenstown was discussed and action deferred until the Council could have an interview with Mr. Bridges, Fire Commissioner, in respect to other hamlets in the County, when an overall policy would be formulated.

A motion was passed authorizing the conversion of \$75,000.00 Dominion of Canada Victory Bonds into the new issue.

Councillors discussed the matter of the short piece of highway from the railway to Highway 23, and requested that this matter be taken up with the Department of Highways to see if it would be convenient for the Department to have this piece of road paved along with the highway.

Most brides would like most a cookbook with a happy ending.

REPRESENTS TCA

Miss Lisa Eriksen, Trans-Canada Air Lines stewardess, reached the semi-finals recently in the International Airlines Stewardess contest held in Miami Beach. The attractive air hostess competed with representatives from all the major world airlines. Based in Vancouver, Miss Eriksen is five feet six and one half inches tall, 125 pounds and has light brown hair and light blue eyes. The contest was won by an El-Al Israel stewardess.

Blue Crane Found Dead on Farm

Last Thursday morning an unusual discovery was made at the farm of H. A. Baden, north of town. A very large bird had evidently flown between the hydro-electric wires near the house, killing it instantly. It was found in the grass a few feet from the transformer pole, with wings outstretched, breast down and bearing not a mark of injury.

On measuring the bird it was found to have a wingspread of six feet, a height of 14 inches, and from the back of its head to the point of its beak measured nine inches. The feathers on the back were decidedly blue with bronze tips, the forward wing feathers were bluish grey and the main wing feathers a dark grey. In Mr. Baden's opinion the bird was a blue crane, a rare species in this district, and it is regrettable that such a magnificent specimen should meet such an untimely end.

Mr. and Mrs. Greaves

50th Anniversary Celebrated

The golden wedding anniversary of a pioneer Majorville couple, Mr. and Mrs. George M. Greaves, was celebrated recently with a family dinner and open house at the home of their son-in-law and daughter, Mr. and Mrs. A. W. Henry of Majorville.

Mr. and Mrs. Greaves, who now reside at 602 12th Ave., N.E., Calgary, were married at Queenstown on Aug. 5, 1905. Mr. Greaves came to Alberta from Paisley, Ont., at a young age and worked around High River for a few years before taking up a homestead on the quarter directly across from the present Majorville post office. Mrs. Greaves (Annie Hurle) came from Spokane, Wash., with her parents as a young girl and lived in the Queenstown district until the time of her marriage. The couple lived in the Majorville district from

1908 until 1948, when they moved to Calgary.

The family dinner celebrating their 50 years of marriage was attended by six of their children: Lewis Greaves, Les Greaves, Mrs. Marion Henry, Mrs. Edith Fuller, Mrs. Lila Avery and Mrs. Thelma Sharp and their families. A daughter, Mrs. Alberta Whitmore of Bluffton, was unable to attend. One other son, Samuel, died in 1936. There are 18 grandchildren and six great-grandchildren.

To mark the occasion, a presentation of a chest of silverware from the family was made by Lewis Greaves.

During the afternoon and evening over 50 friends dropped in to congratulate Mr. and Mrs. Greaves on their golden anniversary and to wish them many more years of happiness. They are still in the best of health.

Home For The Aged

The five-year development plan for Alberta, announced last week by Premier E. C. Manning, is to include the erection of 50 modern homes for aged citizens located in 50 zones throughout the province. Calgary and Edmonton will get larger homes, each accommodating 800, and the other homes will each accommodate 50 aged citizens.

Three or four years ago an effort—sparked by the FUA locals—was made to interest the County and the towns within the county to construct a chronic hospital or home for the aged in Vulcan. A chronic hospital was ruled out for two main reasons: 1) The only construction grant available at that time was the provincial grant of \$1,500 per bed; and 2) There was no operating grant for the operation of a chronic hospital.

Homes for the aged in Alberta have been built and maintained only by private individuals, as in High River, or by service clubs, such as the Lions Clubs of Calgary.

Under the recently announced plan, the province will pay the estimated \$16 million cost of these 50 homes for the aged and will turn them over to the municipalities when completed.

The homes will also be furnished by the province and, when turned over to the municipalities, are expected to be entirely self-supporting.

In planning these homes for the aged, the province has apparently taken into consideration the fact that older people do not wish to be living too far from their relatives—thus the plan to have 50 homes at 50 different locations in the province. Whether or not locations for the smaller homes for the aged have already been chosen by the province is not known, but if it is felt that one of these homes for the aged could be advantageously situated in Vulcan we suggest that the local government bodies and interested organizations make immediate representations to the government.

Then we went to the church grounds and didn't leave till the cherry tree was stripped of all fruit.

The next gardens to be judged were Janet and Elsie Leslie's. We then went across the road to Donna Elliott's garden. The last garden we toured was Patsy Meadows.

A cold supper to which all the girls contributed, was then served in Pat's home. After supper the judges gave their decisions. Judy placed first, Janet second and Donna was third. Pat was presented with a prize, donated by Mrs. Elliott for the best kept church plot.

Regarding showers of the future, the club will sponsor such but committees to make arrangements, decorate and serve lunch will be appointed by drawing names from a hat, in which every lady's name in the district has been placed; thus distributing the burden evenly on everyone's shoulder. It was hoped all would approve with the idea and co-operate.

The members voted in favor of the club taking their annual trip to Lettbridge sometime in October. Plans were tabled till a later date.

A contest arranged by Mrs. Lee Marie Clifford was won by Mrs. Ada Kunkel. The tea raffle was won by Mrs. Madeline Severson. A dainty delicious lunch was then served by the hostess, assisted by her daughter.

**60,000 new reasons every day
for mechanized farming!**

In these days of man-made planets we tend to overlook this old, but still miraculous, earth that feeds and provides for us all.

That over 60,000 babies are born into this world each day—more than enough to repopulate the whole of Canada in less than a year—goes unnoticed. That these 60,000 new mouths will be fed on the produce of this small earth does not make headline news!

Yet, when we consider this astonishing growth in the world's population, we must wonder how it is that our standard of living—measured in terms of food consumption—remains so high. How is it possible when there has been little appreciable increase in the world farm acreage and a decline in the ac-

tual farming population?

The answer lies in farm mechanization in a scientific approach to food cultivation and the development of modern machine methods to increase output per acre and per man-hour worked.

In this development Massey-Ferguson plays a leading role throughout the world—in Canada, in the United States, in France, South America, Great Britain, South Africa, Germany and Australia.

All the world over, wherever farming is mechanized to meet our ever-growing needs, there we find Massey-Ferguson machines hard at work in the fields.

W.A. Garden Party

A delightful garden party under the auspices of the afternoon group of The Women's Association of the Champion United Church, was held Wednesday afternoon, Aug. 13, in the spacious ground of the country home of Mr. and Mrs. Adam Ferguson.

The wooded, cool picnic grounds, beautifully arranged perennial and annual flower beds and borders, the myriad plants of indescribable color, was a veritable fairy-land. Tall, stately old trees, many of which were planted in the early pioneer days by the Fergusons, lent their leafy shade around the well tended lawns of the home site, where lawn chairs, swings

and tables centred with floral bouquets, were placed for the convenience of the guests.

About 125 enjoyed the afternoon and signed the guest book. Several were heard to remark that they were reluctant to leave the serenity of the surroundings to return to the heat and dust of town.

Needless to say how delicious the refreshments were, served buffet style. Mrs. Dewey Greenlee was in charge of the tea and coffee urns while Miss Norma Ferguson looked after the punch bowl.

Worthy of mention is the fact that this was no rare occasion for the Ferguson family to contribute to. Their hospitality is legion throughout and beyond this district.

What Would Surprise Grandma Most Today

Ironing was a day's work for Grandma. Keeping food fresh often meant hanging meats and vegetables in the cellar. And oh! — the hours Grandma spent cooking on a tricky wood stove. Even boiling water wasn't quick or easy for Grandma.

But today, nothing would surprise Grandma more than a modern Frigidaire Range. Let Vulcan Electric show you how it can cook everything from crisp rolls to a luscious lemon pie — in the oven automatically... while you're out! And the Frigidaire Speed-Heat Unit boils water in seconds. The Heat-Minder Unit won't let any food burn. And Frigidaire's new "Spatter-Free" Broiling lets you broil 100 times... without having to clean the oven. Vulcan Electric will gladly show you all the features of the new Frigidaire Ranges in action anytime. Grandma never even dreamed of the cooking help a Frigidaire Range can give you!
